COLLEGE STATION HIGH SCHOOL

Chemistry Road Show– *Jeremy Dockan*

Science is a show-stopper for students! AP Chemistry students create thrilling experiments and present them on-the-road for South Knoll Elementary children. The show is designed to engage high school scholars and ignite an enthusiasm for science among elementary students. This multi-campus grant of \$11,000 creates a chemical reaction for over 600 students.

Unlocking the Air Waves for Modern Live Streaming -

Stephen Green

Live in 3-2-1... High-tech video equipment helps students develop modern production skills for audio/video broadcasting. Real-world, real-time experience unlocks career and educational opportunities in digital arts and communications. This multi-campus grant of \$15,000 streams success for 150 students and brings exciting events to hundreds across the community.

Sponsored by: The Rife Law Firm

RIVER BEND ELEMENTARY

Spotlighting the Senses for Self-Control - *Carrie Morgan*

Focusing attention on the senses helps our youngest students calm anxiety and other big emotions. The Ground Technique teaches social-emotional skills that helps kids in times of intense stress, fostering a safe learning environment. The motor lab grant of \$400 provides a calming center for 150 children. *Sponsored by Britt Rice Electric*

I Can Be A Scientist - *Stephanie Arnold*

Young researchers are exploring chemistry, physics and environmental science with tools and experiments. The hands-on practice of laboratory skills stimulates interest in science. Second graders will be inspired to think like a scientist to question, hypothesize, investigate, conclude and share what they discover. The grant of \$1,000 will engage 40 students every year. *Sponsored by Copy Corner*

Treats for the Mind - *Kate Cruickshanks*

Books are nourishment for the mind. Young learners earn tokens that they can use to select exciting books for their home library. The book vending machine gets the pages turning for emerging readers in PreK-4th grade. This grant of \$8,000 stocks literacy and character skills for 540 students, and similar vending machines can be seen at seven other CSISD elementary schools.
